SUMMARY

I am a strong candidate for the web developer role due to my proficiency in both front-end and back-end technologies, enabling me to manage the entire development process seamlessly. My experience with JavaScript, Python, and SQL equips me to create dynamic web applications while maintaining robust backend systems. I have a successful track record in delivering end-to-end web solutions and am committed to staying current with the latest web development trends. My strong collaboration skills, problem-solving abilities, and dedication to user-focused web experiences make me an ideal fit for this role. I am ready to contribute my technical expertise and versatility to create innovative and competitive web solutions.

EXPERIENCE

Internship Trainee

Bharat Electronics Limited

📅 08/2023 - 09/2023 📍 Bangalore,KA

I completed my internship at Bharat Electronics Limited, focusing on Qt Creator, a software development tool. During my time, I contributed to projects, strengthened my coding skills, and collaborated effectively with my colleagues. This experience has enriched my technical knowledge and abilities in software development.

- Skills: Computer Information Systems · Qt Creator · C++ · C (Programming Language) · Computer Hardware

PROJECTS

Binary Brains | HTML CSS GSAP Django MongoDB

📅 11/2022 - 12/2022 📍 Bangalore,KA

Binary Brains is a web-based online learning app that offers an online learning platform built for engineering students. The tech stack includes Django, MongoDB, and WebRTC. In addition to learning courses, it includes features like email automation, a community doubt resolution system, one-to-one live video communication and more.

Chat Application

📅 08/2023 - 09/2023 📍 Bangalore,KA

Thrilled to share the highlights of my internship journey at Bharat Electronics Limited! I had the privilege to work on a dynamic project - a chat application. Throughout the internship, I collaborated with a talented team, contributing to the development, testing, and deployment of the chat application. It was an incredible learning experience, where I honed my coding skills, problem-solving abilities, and gained valuable insights into the software development process.

TRAINING / COURSES

MERN-Stack

Actively pursuing a MERN Stack certification at Accio Jobs, mastering the skills required for building modern and scalable web applications using MongoDB, Express.js, React.js, and Node.js.
